# INDEX TO VOLUME 6

## Author Index

AINSWORTH, L. *Paper on* 'The use of signal-detection theory in the analysis of industrial inspection', 63-68
ASCHNER, G.S. *Paper on* 'Quality control in the textile industry', 19-21

BLANKS, H.S. *Paper on* 'Techniques to improve product safety and reduce product liability', 40-44
BOWLING, A.G. *Paper on* 'Product Assurance in the 1980s', 27-32
BROOMHEAD, J.H.W. *Paper on* 'Use of mini-computers and microprocessors in the assurance of spot-weld quality', 92-98

COVENTRY BRANCH STUDY GROUP, *Paper on* 'Motivation for quality', 55-59; *Authors' reply*, 98

DE WINTER, R. *Paper on* 'Quality certification in the Dutch printing industry', 61-62

FORRESTER, M.H. *Paper on* 'Quality control in software', 99-104
FREUND, R.A. *Paper on* 'Quality technology: a bridge to international co-operation', 14-16

GASTER, D. *Paper on* 'A scrutiny of the accuracy of machines and the determination of scattering in production', 9-13
GROOCOCK, J.M. *Paper on* 'Quality-cost control in ITT Europe', 71-74

HAYWARD, R.C. *Paper on* 'Men and machines in a large repair and service industry', 105-9
HUNT, J.D. *Paper on* 'Common cause/mode/effect failures: a rational approach', 45-46

LEWIS, C.D. *Paper on* 'The use of a computerized V-mask to identify small changes in process means', 3-8

McROBB, R.M. *Paper on* 'Man and product liability', 75-78
MATFIELD, R.S. *Discussion on* 'Motivation for quality', 98. *Discussion on* 'Quality assurance: updating the definition', 49
MICHIE, J.L. *Discussion on* 'Quality assurance: updating the definition', 49
MORILLO, G.Z. *Paper on* 'Dynamic metrology: a review of published work on *in situ* techniques for controlling workpiece accuracy', 33-39
MÜLLER, M. *Paper on* 'Quality assurance in the building of housing', 17-18

SAYLE, A.J. *Paper on* 'Quality assurance: updating the definition', 22-24; *Author's reply*, 50, 79
SHRUBSOLE, I.A. *Paper on* 'Men and machines in a large repair and service industry', 105-9
SMITH, F.J. *Paper on* 'Attribute sampling: the "Limited Poisson" distribution', 69-70
STEBBING, L.E. *Discussion on* 'Quality assurance: updating the definition', 79

TANAKA, T. *Paper on* 'Growth of our Quality Circle movement in spite of rough times during recessions', 110-16
TAYLOR, J.R. *Discussion on* 'Quality assurance: updating the definition', 79
THRING, M.W. *Paper on* 'Robots and telechirs', 83-91

URQUHART, J.G. *Paper on* 'Public transport service: achieving quality standards', 47-48

WINNING, D.S. *Discussion on* 'Dynamic metrology: a review of published work on *in situ* techniques for controlling workpiece accuracy', 79
WOOD, D. *Discussion on* 'Quality assurance: updating the definition', 49, 117

## Subject Index

Accident prevention, 110
Accuracy of machine tools, 9
Accuracy control, 33
Aeronautical Inspection Dept (AID), 28
American National Standards Institute (ANSI), 16
American Society for Quality Control (ASQC), 16
Attribute sampling, 69
Audits and checks, 29
AUTOCORNERS programme, 4
Automatic inspection, 35
Automotive industry, motivation for quality, 55
Average run lengths (ARLs), 3

Bayesian-type concept, 70
Bayes's Theorem, 45
Binomial distribution, 69
British Railways, quality standards, 47
British Standards Institution (BSI), 16
Building industry, 17

Centre of gravity, position of, 70
Certification Mark, 17
Checks and audits, 29
CNC control system, 37
CNC measuring machine, 37
Codes of Practice, 100-2
Coding program methods, 102
Common Mode Failure, 45
Computer memory, 31
Computer program modification, 102
Computerized V-mask/cusum test, 3
  applications, 6
Computers. *See* Mini-computers
Concord flight deck simulator, 30
Condition monitoring, 109
Costs. *See* Quality cost(s)
Coventry Branch Study Group, 55
Criticality Number, 42
Cylindrical grinding, 35
